PROFILE

Enthusiastic Front-End Developer eager to launch a career in web development. Proficient in HTML, CSS, JavaScript, and React.js, with a strong foundation acquired through self-study and practical projects. Skilled in building responsive and intuitive user interfaces that enhance the user experience. Committed to continuous learning and staying updated with the latest trends and techniques in web development, including React ecosystem advancements. A collaborative team member with excellent communication skills, ready to contribute to the success of innovative projects in a dynamic work environment

PROJECTS

Pets & pets product website using HTML & CSS

- It is a E-commerce which is developed by using HTML and plain(vanilla CSS)
- By this project I developed my understanding of CSS for styling the website
- Also gained deeper understanding on Flex-box and learned to make a fully responsive website

LINK : <https://jashwa-29.github.io/The-Pawsome-Friends/>

CRUD operation using Javascript

- Developed a JavaScript CRUD operations project, enabling users to Create, Read, Update, and Delete data efficiently.
- This project helped me a lot to get more knowledge and understanding of Javascript especially the Event handlers and DOM manipulation
